Notes:

- 1) The above rates are subject to VAT unless the company can present their BIR Certificate of Registration as either VAT-exempt or VAT zero-rated.
- 2) The shipping line/SOC will have to separately negotiate with IRS for the following:
 - (a) labor component of the PTI since container moves and PTI-related electrical charges will be billed by DICT directly to the shipping line/SOC, and
 - (b) both the labor and materials for the maintenance and repairs of defective containers.
- 3) If the temperature and ventilation setting is made part of or bundled with the PTI services to be performed by IRS, then IRS will need to render this service. Otherwise, DICT can perform this service at the specified rates above.
