Re : Memo on the Implementation of Load Closing Time (LCT) at DICT

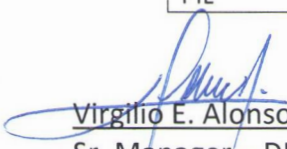

Sirs,

This is to inform your good office that, in line with the implementation of the SOLAS VGM, DICT will implement a **Load Closing Time (LCT)** effective July 1, 2016. The LCT will apply on all vessels calling DICT with a cut-off of **three (3) hours after vessel's pro-forma berthing window**.

In this regard, only the containers that gated-in within the LCT and included in the load list provided by the shipping line and has no outstanding charges will be included in the stowage plan for loading operations. The LCT will likewise serve as the cut-off for the shipping lines in the submission of the final load list to DICT.

For your guidance, please see below the revised berthing windows of vessels calling DICT and their corresponding LCT.
